AFFECTED PART NUMBER(S): Refer to the Change Description below for a list of Affected Part Numbers and First Ship Dates.			
CHANGE DESCRIPTION: <p>The color of the jacket will change for the cables listed in the table below. The previous jacket cover was grey; the new jacket color is black. The durometer (hardness) of the PVC outer jacket will also change. The previous jacket was classified as "semi-rigid". The new jacket is classified as "flexible".</p> <p>All other properties of the cable aside from those listed above will <u>not</u> change. For example, the construction of the cables and wire guage (AWG) of the cables will not change, which means there is no change to electrical performance. The outside diameter of the cable or connectors will also not change.</p>
